

HOW TO SPOT A DEEPPFAKE

6 signals that a video might be AI-generated

1

CHECK THE HANDS

extra fingers, bent joints,
hands that melt together

2

LOOK AT EDGES

hair, glasses, and jewelry
that blur or flicker

3

TEST THE PHYSICS

water, shadows, and objects
that move impossibly

4

WATCH THE LIGHT

shadows pointing different
directions

5

LISTEN CLOSELY

voice and lips slightly
out of sync

6

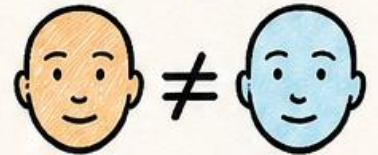

TOO PERFECT?

skin with no pores,
teeth too even,
faces too smooth

FACE SWAP? EXTRA CLUES

blending marks
at the hairline

face and neck
colors that
don't match

sharp face,
blurry
background

Clues change. Habits don't.
